"I have known Michael Lyons for almost forty years as a classmate (Western University), colleague, and friend. He is extraordinary in building musical programs that are incredibly well suited to every situation, season, and person."

"With an encyclopaedic knowledge of music in many genres, Michael Lyons is uniquely qualified. I cannot think of another Canadian musician who possesses his broad scope of knowledge. His experience as a professor of music, jazz-band director, symphony orchestra performer & conductor, music director of young musicians as well as a most articulate radio broadcaster attests to this."

Jerome D. Summers

"I was V.P. Programming & Operations while Michael was Music Director and on-air host. Michael was instrumental in the station's growth, ultimately becoming one of the most listened to major market radio stations in North America. You will be hard pressed to find anyone who has Michael's programming and on-air expertise."
